

Thomas Construction Consulting

We help individuals and companies select a highly reputable builder, architect, and engineer that best fit their specific construction project, from our network of construction professionals, to ensure our clients receive the very best pricing, terms, and quality. Contact us if you are planning to build or renovate any type of project between \$1 million - \$500 million+.

"The benefits and savings we receive and pass on to you are much greater than the cost of our fee, resulting in our fee being no cost to you. If you are not satisfied with the builder, architect, or engineer we have selected for you, you owe us nothing. This is our guarantee."

- Thomas Houck - Owner & President
